

MARKET SUPPLEMENT PROGRAM

**Report of the Market Supplement Review
Committee**

Masters Psychologist

November 12, 2014

OBJECTIVE

The objective of the Market Supplement Program is to ensure that Saskatchewan health care employers can attract and retain the employees required to provide appropriate health care services to the people of Saskatchewan.

This program is designed to address specific skill shortages by use of a temporary market supplement to attract and/or retain qualified employees. The program is designed to ensure that temporary market supplements respond to valid labour market criteria to address recruitment/retention pressures.

OVERVIEW

The Market Supplement Review Committee (MSRC) reviewed documentation submitted in the review process regarding the market supplement for the Masters level Psychologist classification. Masters level Psychologists are members of the Health Sciences Association of Saskatchewan (HSAS). The Masters Psychologist received a market supplement in November of 2013. The terms and conditions of the Market Supplement Program are provided in Letters of Understanding between the Saskatchewan Association of Health Organizations (SAHO) and HSAS.

There were nine health regions that participated in this review.

Role of a Masters Psychologist:

The Masters Psychologist is responsible for the provision of assessment, consultation, and counseling for specified client groups. Specialized knowledge is applied in assessing and diagnosing clients, and providing advice and consultation to various groups concerning psychological information.

Qualifications:

The Masters Psychologist requires the successful completion of a Masters degree in Psychology.

Information regarding budgeted positions and vacancies is provided in the following table:

Table 1 – Masters Psychologist (Including Senior Level) – Budgeted and Vacant Positions (November 2014)

Health Regions	Number of Budgeted Positions (As of November 2014)		Number of Vacant Budgeted Positions (As of November 2014)		% Vacancy	
	Full Time	Part Time	Full Time	Part Time	Full Time	Part Time
Cypress	3	0	1	0	33%	0
Five Hills	5	0	0	0	0	0
Kelsey Trail	1	0	1	0	100%	0
Prairie North	6	0	0	0	0	0
Prince Albert Parkland	3	0	1	0	33%	0
Regina Qu'Appelle	15	4	1	0	6.6%	0
Saskatoon	12	3	0	0	0	0
Sunrise	2	0	1	0	50%	0
Sun Country	3	0	0	0	0	0
TOTAL	50	7	5	0	10%	0

ANALYSIS

The MSRC discussed the Labour Market Criteria as guided by the Market Supplement Program framework.

SERVICE DELIVERY IMPACTS: *(Employers were asked to provide information that addresses current service delivery impacts resulting from staff shortages, potential staff short term service delivery impacts, potential long term service delivery impacts and options for alternative service delivery models).*

Of the employers who reported to this review, four reported no service delivery issues; two reported minor issues; two reported moderate issues; and one reported service delivery issues as being at a critical level.

Some employers reported they have used neighboring health regions to assist with service delivery; contracted out services; or established partnerships with other agencies. Also, some employers have used other classifications to assist with the delivery of service.

VACANCY RATE ANALYSIS: *(Employers were requested to provide information about the frequency and timing of vacancy occurrences {i.e., seasonal vacancies; do the vacancies always follow an event; etc.} and to identify trends that may affect recruitment/retention efforts).*

Health regions have reported five full-time vacancies.

TURNOVER RATES: *(Employers were asked to provide local analysis of reasons for leaving and trends that may be emerging. They were also asked to provide annual turnover loss of employees to other competitor employers} ratio to the existing staff complement {budgeted positions} in the given occupation.)*

Of the regions that report and track turnover for the Masters Psychologist classification, the following data is reported:

- Last 12 months = 7 (other employment; domestic/family reasons; change of occupation; failed probation/dismissal)
- Previous 12 months = 5 (other reasons; other employment; family/domestic reasons)

RECRUITMENT ISSUE ANALYSIS: *(Employers were asked to provide information such as length of recruitment times, training investments, licensing issues, supply and demand issues, etc., as well as information that would identify trends that may affect recruitment and/or retention efforts).*

Overall, health regions report their recruiting efforts for this classification as being moderate. This would typically include efforts such as advertising, attending career fairs, offering recruiting incentives, relocation assistance, training and education assistance and in some cases, offering practicum's through universities.

SALARY MARKET CONDITIONS: *(Employers were asked to identify situations where their salary levels are lower than other employers that they would expect to recruit employees from or other employers that recruit their employees. This may be local, provincial, regional, national or international depending on the occupation group and traditional recruitment relationships. Cost of living considerations may or may not be appropriate to factor into market salary comparisons).*

- Saskatchewan health regions – minimum \$38.433/hour, maximum \$46.992/hour. Effective June 11, 2012.
- British Columbia health regions – minimum \$37.570/hour, maximum \$46.850/hour. Effective April 1, 2014.
- Alberta health regions – minimum \$40.260/hour, maximum \$53.500/hour. Effective April 1, 2014.
- Manitoba health regions – minimum \$35.583/hour, maximum \$46.045/hour. Effective April 1, 2013.

CONCLUSIONS & RECOMMENDATIONS:

Considering all the labour market criteria within the Market Supplement Program Letters of Understanding, the Market Supplement Review Committee makes the following conclusions for the Masters Psychologist:

- The majority of employers reported no service delivery issues; two reported minor issues; two reported moderate issues; and one reported issues as being critical since their only position is vacant.
- Five full-time vacancies were reported for this classification.
- Moderate turnover rates were reported for this classification in the past year.

Having reviewed the information as provided by employers and considering the labour market criteria, the Market Supplement Review Committee recommends maintaining the market supplement for the Masters Psychologist classification.
